Oh...original subs....

Here were the other three:

3. Dr. Jim Lockey , emeritus professor University of Cincinnati: No COI: Drs. Lockey and Lemasters are also married and would be interested in working as a team.
4. Dr. Grace Lemasters, University of Cincinnati: "In terms of conflict of interest. I have only 1 possible one. I am the co-investigator of a Refractory Ceramic Fiber study (not asbestos) which is an industry sponsored study by the High Temperature Insulation Wool Coalition (HTIWC). This study sponsors a small percentage of my time as the occupational epidemiologist on the study. I am also the co-director of the Career Development Core for the Center for Environmental Genetics which is funded by the NIEHS. Funding on the Center ends April 1, 2018."
5. Dr. Paolo Boffetta, Mt Sinai Medical Center: "Dr. Boffetta participated as expert witness for the defense in two trials in Italy (one in 2011, one in 2016-2017) related to health effects of asbestos exposure in the synthetic textile industry."

I just talked to Jeff about this and I am going to ask Tom and Leonid for suggestions. Do you still have the list of original subs tht we considered? I'm not sure if I can find it now.

**Cc:** Pfahles-Hutchens, Andrea <[Pfahles-Hutchens.Andrea@epa.gov](mailto:Pfahles-Hutchens.Andrea@epa.gov)>

**Subject:** FW: SACC and ad hoc lists

Jeff/Cathy:

Thanks...am adding Andrea in case she has something to add. My quick thoughts:

I went back to our request back in early June and the only thing (perhaps) missing would be a specialist in fiber science/inhalation toxicology. Everything else seems covered (we checked off genetic variability, epidemiology, aging, human health risk assessment, biostatistics, occupational, general and consumer exposure).

Also, none of the three subs working on asbestos is listed in either the SACC chartered or nominated group.

FYI –

Gino – I need to know if you want to nominate any other adhoc members for asbestos. If you know names of folks who would be good and are not conflicted because of work with us please send asap.

Thx

Hi Jeff,

I have attached the document we commonly refer to as the "Grid" which to an extent identifies categories of expertise for SACC members.

I have also attached the current list of names and affiliations for the nominees. Please note the total stands at 62, but where there are gray boxes that indicates persons who have expressed that they not be included or are persons who are outside of the US. Obviously, the ideal would be to eventually create a grid to help illustrate more specific areas of expertise; something we can determine later with a closer look at CVs.

I have printed hard copies for you and can hand off the next time we are meeting.

At this time, OSCP would like to request that OPPT provide names and contact email addresses for anyone the Office would like to nominate for all areas of expertise for all the SACC meetings we are planning for the coming year. I will send out emails to indicate these persons have been identified as nominees and then invite them to consider responding with documentation in support of their nomination.

With pressure from the third floor, we need to move on gathering nominee information immediately. I have a deadline to get nominations and biosketches from nominees by the end of the month. I'll do my best to process as many nominations as OPPT wishes to provide.

Best Regards,
